Seeking challenging opportunities as a Front-End Developer to leverage my strong foundation in engineering principles and passion for innovation. With excellent problem-solving abilities and effective communication skills, I aim to contribute my expertise in using cutting-edge software and tools to create engaging and user-friendly web applications. As a dedicated team player, I am eager to collaborate with dynamic teams and make a positive impact through the delivery of high-quality and visually appealing digital experiences.

Education

Francis Xavier Engineering College	2020 - Present
• B.E in Electronics and Communication Engineering CGPA: 9.35	
A.U.P.E.T Chinmaya Vidyalaya	2019 - 2020
• HSC-Maths,Biology (Class XII) Percentage: 79%	
A.U.P.E.T Chinmaya Vidyalaya	2017 - 2018
• SSLC (Class X) Percentage: 91.4%	

Skills

Python | MySQL | HTML | CSS | JavaScript | React+Vite | Tailwind CSS | Power BI | Internet of Things | C | Arduino | TinkerCAD |

Internships

CampusCoder Web Developer Intern	12/2023 - 1/2024
• Focused on developing the frontend of websites using HTML, CSS, and JavaScript. I crafted user interfaces, implemented responsive designs, and enhanced interactivity, contributing to a dynamic and engaging online presence.	
Preludesys Business Development Executive	10/2023 - 12/2023
• Leveraged Salesforce CRM for targeted outreach, converting leads into scheduled meetings and potential sales opportunities.Tailored Microsoft Dynamics services, fostered positive client relationships, and optimized the sales pipeline through effective coordination and ongoing Salesforce CRM training.	
StartupTN (Govt based Organization) Intern	01/2023 - 02/2023
• In Tamil Nadu's startup ecosystem, I leveraged Wix to create impactful websites, collaborated with rural startups to offer growth insights, and organized events to catalyze their transition into thriving businesses, all while fostering compelling online presences and user-friendly interfaces.	

Projects

Weather App React+Vite Tailwind CSS JavaScript CSS	01/2024
News Blog Site HTML CSS JavaScript	12/2023
Emotion Based Music Player Python Machine Learning	04/2023
Boutique Management System Python MySQL	11/2022
IOT based Water level and quality monitoring System IoT Arduino	03/2023
IOT based gas detection System IoT Arduino	02/2022
Home Security System IoT Arduino	04/2021

Achievements

- Curated and executed vibrant gatherings, fostering interactive and educational atmospheres in both collegiate and school settings.
- Secured top honors as the recipient of the prestigious Jury Choice Award in recognition of an outstanding online presentation at Scifesta.
- Recognized as a finalist in the esteemed Tamil Nadu Student Innovation Competition 2021, showcasing exceptional ingenuity and accomplishment.
- Attained accolades through victorious participation in college-level basketball tournaments, demonstrating exceptional teamwork and strategic prowess.

Certifications

C Programming Course (Provided by Byts.)	12/2022 - 03/2023
Python Essentials I (Issued by Cisco.)	07/2023 - 08/2023
Introduction to Artificial Intelligence (Provided by IBM in Coursera.)	06/2021 - 07/2021
